herein outlined. We have chosen a Writ of Habeas Corpus Pursuant to 28 usc \$2241 as the vehicle in which to approach the courts; however it might not be the correct method. Because every Plaintiffs listed herein, and all other inmates housed specifically in Lewisburg usp and specifically housed in B-block, all are suffering from the same exact constitutional violations by the aforementioned defendants, we figured our approach to the court would garner more strength by acting in concert other than individually. None the less, the issues herein outlined are very concerning and requires the affection of the rourts; therefore, herein we present our claims.

(2) Pursuant to 28 uses 2201 and 2202, the Plaintiffs seek Declaratory Relief and under 28 uses 1391 (b)(2) does the Middle District of Pennsylvania have jurisdiction and is the proper venue since it is where the events giving rise

to this complaint occured. By and through such statutes and rules does the Plaintites contend that this court is the proper jurisdiction and authority to hear and adjudicate all matters contained herein. Therefore we pray the court for hears our pleas and offers us relief.

(B) Each Plaintiff listed hereon is a federal prisoner and is currently being housed in Lewis burg 4319 and is in Specific participation of the Secured Montal Health Step Down Program (herein after referred to as the "Smu"

program). The Smu Program is a program devised by the FBOP to specifically manage inmates that have an

issue of disciplinary intractions. It is a very specific program designed to assist the mental health needs of the inmates participating and as such, has very specific security protocols in place to manage such

(B) The inmates are housed in a Special Housing Unit-type (SHU) manner. Meaning, the Plaintiffs are locked down in a cell 23 hours a day, with one hour of res, also in a secured rage. The inmates are given

Special Mental Health Programming Packets to complete within their cells and are mandatory to complete to exit the program. The program takes 9 months at the very minimum to complete plus time for transfer to another

institution. In effect, the Plaintiffs will spend at a minimum of a year confined in the manner aforementioned.

(19) It is well understood that prolonged durations of secluded confinement contribute to signific

(19) It is well understood that prolonged durations of socialed confinement contribute to significant psychological and mental complications in immates. So much so that specifically the Smu Program had been

Changed to have a limited time frame by which one can complete the program, which is two years. This issue is so

significant that even President Obama addressed the issue of long durations of lockdown and segregation.

The Plaintiffs state this as fact because, it is a factor when considering the matters can tained herein. Our privalenges and rights have been significantly reduced to the lowest factor, limiting our abilities on everything from simple movement in our confined spaces to access of information and correspondence to our families and friends.

Our Mental health is at the utmost concern in this litigation as well as the rights that guarantee our ability

(as part of the security measures of any penal institution, certain procedures are enacted to ensure

institutional security. One of these measures is the institution's ability to inspect and review in coming and outgoing mail. This measure of inspection is an agreement from the inmates to the institution to allow such, otherwise inmates will not be allowed the right of correspondence by mail. This agreement is made by and through the use of

form BP-A407, wherein the only options are to allow inspection of incoming and outgoing mail or to have it for warded elsewhere; thereby, limiting your right to correspondence. The contents of this very form contractual agreement (BP-A40) is provided in frogram Statement 5265.14 and codified in 28 CFR\$ 540 and is the very BOP Program

Statement and codified law in the issue at hand. It should be understood that all the Plaintiffs herein have agreed to the this method of mail inspection only and that no other contractual agreements have been signed or agreed to in regards to any other security measures taken upon the mail correspondence.

attainment of certain materials, legal or otherwise, from the Unit Counseler Tharp or from the management of

Lewisburg Prison has been purposely denied as will be outlined in the claims section and is one of the very issues

conserving the actions contained herein.

Even though inmates are being housed in the SMU Program under these harsh security measures,

they retain the right to access the courts by and through an Administrative Remedy process, that once exhausted, allows reproachment through the federal courts wherein said remedy and petitions can be adjudicated further. This is one of many Constitutional Rights that are inherent and absolute for all prisoners.

All prisoners also retain the right of due process of law under the 5th Amendment, and generally are

held to standards provided in Wolff V. McDonnell 418 U.S. 539(1974) and Sandin V. Conner 515 U.S. 472 (1995). Since the Plaintiffs will be claiming "atypical and significant hardship" seperate from these of other innotes and that we

have a "liberty interest" in avoiding said hardship, we felt the message to specifically mention this Constitut-

ED Further more, and lastly, we, the Plaintiffs, understand that in lieu of the many scencity con-

cerns in the administration of a penal institution that security measures must from time to time be changed accordingly to ensure proper institutional safety and that the blander alone has a limited authority in addressing these matters and adjusting security measures and protects of an institution, as a whole, to ensure said institutional safety and security as per BOP frequent Policy. These measures would understandably be more concerning in respects to be wishing usp in that it howers and operates the simu frequent and all it entails and eacompasses.

(25) These are the facts as we, the Plaintitis, believe and understand them to be and supply them in 'soed faith" that this is indeed as we understand. We also ask for the court's patience and understanding in regards to our actions in this legal recourse; in that, we are limited in our access to legal materials and our understandings of this legal process. We are along what we are able in our legal capacities. We only ask that though our actions will be liberally construed, that any and all rights not herein supplied nor defined not be unrequitted but implied and utilized in the furtherance of justice in these matters; for though we have not directly provided soid standing, this does not imply that the unstated standing does not exist simply because ignorance to that affect we ask for the embrement of all legal rights and standing does not exist simply because ignorance to that affect we ask for the embrement of all legal rights and standing to be implied and adjuditated without as unstated limine.

It should be stated here that there are many Plaintiffs seeking. He relief requested herein and that it is indeed true that some have managed to instigate the Administrative Remedy procedures as defined by FDP Policy; therefore it can be presumed that Call the Plaintiffs have not sought out and exhausted all Administrative Remedy Procedures. However, as will be delineated in the "III Grounds" section, the access to the Administrative Remedy process is being witheld from us by denying access to the necessary forms required to proceed. The reasons why same inmates have manage to instigate the

Administrative Remedy process is specifically not from the administration providing said forms; this has come from those that happened to have the forms within their possession before they were moved to B-block. Counselor Tharp is specifically the one whose job it is to provide said forms and it is precisely his actions, or lack thereof, that is the contributing factor to they we can't exhaust the remedy process and is directly responsible for the Motion of Injunctive Relief and Temporary - Restraining Order attached becauth.

and the impact they have on the Constitutional Kights of the Plaintitts as well as the mental and psychological issues these matters effectuate. The Administration Remedy process would succumb the Plaintits to an extended duration of time

(an estimated 6 months or more for BP-8 thru BP-11) in these conditions and as such will only apply to those issues individually, but as can be shown herein, this is not an individual discriminatory action but applied to a specific group of individuals and is the specific reason we chose to petition the court in this manner by Turner U. Burnside, 541 F.3d 1074, 1085 (110 Cir. 2008), a serious threat of substantial retaliation against an inmate for launching or presuing a grizonance can make the Administrative Remedy unavailable, and by so, makes the requirement of 48 USCS 1997(EVG) unattainable without threat. In our case, not only is relaliation a factor, but we aren't even being provided the necessary forms. We believe that we bring forth to the court the stated argency as required for a Temporary Restraining Order and a Preliminary. Injunction.

(2) However, if in the very least this court should find that this action indeed be premature, that the the ministrative Remedy process has not been adequately exhausted, or that this filing fails to meet the necessary criteria. Required by the court at this time, the Plaintitts humbly regined that the Temporary Restraining Order and a Preliminary. Injunction be considered in the Intervent to stop Counseler Theory from denying as access to the necessary forms and allow our filters to be unimpeded so that we can, at least, exhaust the Administrative Remedy Process. We would, secondly, ask that the said relief also dictals the allowance to recieve our mail property as is delined in the Rop Process. We count.

Tistly, the Plaintiffs reallege and incorporate by reference paragraphs 17 thru 29 since contained therein are certain facts and references to the claims provided below. The Plaintiffs allege that, though the Declarations that have been provided have varying degrees of reference to the forth coming grounds, all Plaintiffs agree on the grounds hereafter.

(3) Ground #1: The Plaintiffs have all been specifically pulled from other areas or "Blocks" within the Lewisburg Prison and placed in the specific block Known as "B-block." By and through this specific segregation has the

administration created specifically tailored discriminatory acts under the 14th Amendment, particularly the "Equal Protection Clause," and since these actions are only being applied to this specific group of inmutes located on B-block, that these actions constitute discrimination by definition. Thereby do we first claim discrimination against us by the Halminitation of Lewisburg USP. (See attached Memorandum of Law" for supporting case law)

Ground #2: Because the methods used in the discrimination herein described, many of our claims are intrinsinctably intertwined since the very methods themselves constitute and warrant a claim. In this second

claims, the Plaintites allege that they have been placed on "Enhanced Restrictions" upon their incoming and outgoing mail and it is by this action and others, is the discrimination established in ground #1. Upon our movement to B-block we all

recieved a specific notice that there in described these "Enhanced" procedures. (Please refer to Exhibit "A" here with attached). By being placed on these enhanced restrictions without a disciplinary action or reason do we claim that we have not been afforded due process as defined in the 5th Amendment and that a significant liberty interest has thereby been affected. (Please refer to the attached "Memorandum of Law" for case law references and supporting arguments)

Siround #3: The Plaintiffs claim that the worden has over-stepped his authority in the application of

Program Statement 5265. 14 was cited and partially quoted (Review Exhibit "A") We do not claim that the Warden does not have the authority to apply specific security measures or protocols applied to mail correspondence to the institution as a whole through the procedures outlined in policy on Supplementation Rules being applied institutionally specific. We

do, however, believe that the warden cannot tailor conditions to specific individuals or groups of individuals without apply-

these enhanced restrictions upon mail. As outlined in the notice provided by the administration here at Lewisburg Prison,

ing them to the institution as a whole. Regardless, in this claim we state that nowhere in BOP Program Statement does the authority worden have the mail. The very Program Statement that is quoted on the very notice they provided (P.S. 5265.14 - codified @ 28 CFR 540) dictates that the warden cannot create mail.

restrictions as strict and harsh as these. (Please refer to the attached "Memorandum of haw" for case law reference and supporting arguments)

[Incound #4: The Plaintiffs claim that our 1st Amendment Right to, "petition the government for a cediese

of grievances" is being substantially violated by our inability to obtain the proper legal materials to utilize the Administrative.

Remody process We believe the very of denial of access to the required forms by BOP Policy to redress grievances is an undering

able "actual injury" in that it allows no method to solve grievances amicably through the Bop provided procedures that in turn allows us to redress an "actual injury" taking place. Applying Turner Tests, the Procunier less-strict standard, or even the

Lewis standard is easily reached when you are being allowed no access to the courts. Injury is implied by this very denial.

By An example of this denial is found in the Declaration under Justin Haynes wherein he inquired of counselor. Thank for a BP-8, the first form and step applied in the grievance process under BOP Policy. Counselor Thank absolutely refused.

the BP-8 since Haynes stated it was for the new "enhanced restrictions" upon the mail. Haynes heel a family member pass away and was denied access to the funeral information and obituary information. What sercurity interest does this serve exactly? The mental duress of losing a loved one is difficult enough, compounded by prolonged housing in lockdown, restrictions upon

your grieving process of the family loss by not attaining the funeral information andler pictures, and new not being able to reduces this obvious devial of rights is enough to drive someone to a point of losing fortitude and becoming mentally un-

stable or beligerant Haynes argued vehicinently with Counselor Thorp and from said argument was Mr. Haynes placed on

paper; meaning all his clothing and hedding was removed and he was given paper clothing and paper bedding. Haynes was dressed in a napkin because he tried to redress an obvious worthy grievance. This does not serve a government or security interest what-so-ever. It is gross and repugnant to any normal human's sensibilities in a person grieving. The loss of family. This is only one of many contractations that the flaintitie have had with Counselor Therp.

As outlined, the issues that led to this motion being drafted encompass well more than just the particular issues being claimed in this action; however, we decided that to approach the court for resolve would be better brought upon a unified front and subsequently, only claims that affect the group as a whole can be offered though the behavior of the administration of bewisburg suffers from many egregious actions beyond those herein claimed.

By what we the Plaintitis have mitted is that the administration does not wish us to file against the new mail restrictions because they are arginet, unclue, and in complete violation of our rights, policy, and even the law! These new respectives go beyond the scape of the definition of "reasonable" in regards to any administrative effort to protect trictions security.

(Please review attached "Memorandum of Law") This can be construed as "Retailation" we offer law on this as well.

(Blease review attached "Memorandum of Law") This can be construed as "Retailation" we offer law on this as well.

# 5: The Plaintiffs claim that this denial of being able to boardle thick mail violates thick right

or to provide a security interest to the institution of Lewisburg USP. By the administration denying access to the Administra-

of freedom of speech, association, and expression outlined in the 1st Amendment. This coincides with due process violations under the interest of property. This limitation upon our mail definitely hinders our family's "freedom of expression" since we can't handle the very mail they handled. You see, something as simple as smelling a perfumed letter or to hold a picture of a

loved one or child not seen in years means so much to us in here. Our mental and psychological states are maintained by
those moments like our last vestiges of our lives that exist out there in the free world. There's a reason why Policy Statement

5800.1, the "Mail Management Manual," states clearly the procedures in which Bop personal are supposed to take in handling our mail. This shows the care applied to our mail because it is our main means of correspondence to the world.

We must provide here that our incoming and outgoing is being delayed significantly, sometimes up

to two weeks before being delivered either way, and that's it it is even making it to it's destroation. This issue has gotten so bad that we are forced to use certified mail and return reciept requests, causing added expenses just to ensure our mail gets delivered. The issue in this regard is that our Counselor (Therp) simply refuses us everything. We're tried to get anything and everything possible and through counselor Thanp - the man whose responsibility this is - absolutely refuses

us. We sometimes get some other person to slide us something but it's like an unspoken rule to dany us or refer back to Counselor Thorp. It's gatter unbelievably ridiculous! This is ruly we ask for immediate relief through the Temporary

Restraining Order and the Preliminary Injunction! (Review the attached "Memorandum of Law")

Grand #6: The Plaintiffs claim that openitically under Policy Statement 5265.14, which is codified law under 28 CFR 540, and Policy Statement 5800.1, that the Warden, and any under him in which he has given authority, is not only violating our Constitutional Rights but are very clearly breaking the law. The very Policy / Law they quote in their notice is very clear in what "restricted general correspondence" means. It is only to restrict the contacts of an individual. The worden and those under him are acting outside the "color of the law" and should be held to such (Please review "Memorandum of Law" for a review of the Policy (s) and Law herein stated)

Ground#1: The Plaintiffs contend that if for some reason that the courts disagree with the grounds herein authored and believe the Warden, and subordinates, have acted "reasonably" wroten the Policies and Law as they are corrently written, then we believe and claim that the policies thereto are unconstitutionally vague and require amending. The Plaintiffs believe the law is clear on all the matters herein but, if for ignorance or the lack of understanding, this is not so, then we claim that the policies need to be clarified and amended as such to conclusively dictate this fact (see "Memorandum of haw" hereto attached)

VII Conclusion

In conclusion and support of our claims herein, the Plaintiffs, offer for exhibit as evidence some of our copied mail so the court can see the methods used in these enhanced restrictions. It is important to note the stamp placed on the photocopy of the envelope where it dictates that Policy 5265. 14 supports these actions. (See Attached Exhibit "B" and Exhibit "C") If you read the letter to Immate Nathan Railey from his father, you will directly see correspondence over a specific issue involving the mail where Railey's father was sending a copy of a law book and it was clented from the administration. This further proves this administrations directive in keeping us from the law and the courts. If you review both exhibits, you will notice they shrink the letters to obviously conserve paper. Many times this makes hardwritten letters very difficult to read.

We also must mention tactics taken by the administration in other ways to limit our access to the coarts and legal material. The law computer is purposely out of paper. I say this because absolutely no one has been able to print their documents while in the law library and earry them out. We can only jet down by hand the research we need. This unbelievably limits our abilities. What the administration does is, when you send something to print, it goes to the print que, which is a spot in memory that saves the print jubs in order. When the printer is out of paper, the print jobs que up in order on the print que but don't print until the printer knows that there is paper available. The administration handles this act of filling the paper trays. So, they, after we are back in our cells, go into the law library put the paper in the printer and allow the documents to print out. They then

get the opportunity to peruse through your documents and decide whether you reciew them or not. This has happeried alot where some people get their print-outs and others don't mysteriously then lo and behald, when the next person goes in the law library, the printer is out of paper once again. . Glong with actions as these, we recieve notice when they do other actions to limit our abilities For example, we were told today that we would not be able to buy paper on the store but yet they clark pass out enough for anything at all They give us like 10 sheets of paper and now they absolutely deny us pens So for we can still purchase those but how long til they remove that ability too? We didn't claim these issues because we are inherently unable to prove such because our limitations, being in special Housing. They know this and is why they do it we desperately need your assistance. Attached here to, we have provided a Memorandum of Law to support the ground's listed herein. We've also provided a Motion for a Temporary Restraining Order and a Preliminary Injunction and we believe these are absolutely required due to the circumstances we face. If anything we require injunctive relief to stop the administra tran from hindering our access to the courts. With that we will be able to redress these issues properly through the channels that are supposed to be available. However, considering the very nature of the behaviors being displayed and the absolute disregard and purposeful misconstrual of Policy and the Law, the Plaintites believe injunctive relief should be applicable to the "Enhanced" mail restrictions as well until the court can farther adjudicate these matters Also attached here to upu will find a Motion for Consideration that this action be titled a "class action" under Rule 23. Therein you will find the supporting arguments on this request though we are unsure whether something of this nature falls under a Wort of Habres 25 USC \$ 2241, and for that ignorance, we apologize. However, we feel that these actions are very concerning and our small amount of 10 inmates is maybe around 10 percent of the total inmates affected that we know of The sad thing is that this court will most likely - recieve many other motions over the many other issues happening here beyond those herein listed. Substantial measures must needs be taken. - VIII Prayer for Relief

Wherefore, the Plaintitts respectfully pray that this court enter judgement granting the Plaintitts:

(1) A Declaration that the acts and omissions herein described through our grounds or other.

Wise, have indeed violated the Plaintitt's' rights and the Constitution and the laws of the United States.

(2) That the attached Temporary Restraining Order and Preliminary Injunction be considered and issued, ordering the Defendants herein listed, and any and all other not listed employees given authority from the Pelendants herein listed, of Lewisburg USP to immediately cease thier interference in allowing access to legal mederial and access to the courts; and to cease immediately these new enhanced mail restrictions and follow the Policy and haw as

# it is clearly defined; and to cease any or	ther discriminatory acts being purposely applied to only those inmates
that are housed in B-block.	
	nsider the motion of Consideration to allow the Plaintites to pro-
ceed under Rule 23 as a "Mass action" since	these matters affect many more inmates beyond those herein
	justly be applicable to the class as a whole.

AHN: Court Clerk:

Here with your will final many documents, motions, and a complaint. The Plaintiffs listed therein wished that the complaint and otherhod motions and actions would be filed as a 2241 Writ of Habeas Corpus. However, considering the circumstances clelineated therein, we understand that the court may wish to make the complaint and associated documents as a Bivens suit; therefore we attached a Bivens form to this mailing. If the court door deem that this action to be a Bivens action then Camden Barlow, in which his name and info is provided within the Bivens paperwork, would like to make whatever necessary requirements are needed as for as payment, etc. to get this action in front of the court as soon as possible. The matter is argent. Therefore will you please provide whatever necessary forms are needed for this? Also please provide the court for future reference.

It also should be noted that these closuments we sent the court are the originals and we have not been able to get copies of such. This is one of the many matters contained therein. Our mail correspondence is the main issue in the filings herewith and we ask that the court please hold these papers until we get whatever is required of the court (i.e. payment) etc.) Sending them back to us can be detrimental to our case since our mail correspondence is the issue being moved upon. If the court sends any letters to the Plaintiffs, the envelopes must be stamped "Special Mail: Open in the presence of the inmate" due to 28 CFR9540. 18-540. 19. Otherwise the prison will open, read, and apply the illegal "enhanced restrictions" on correspondence discussed within our actions. If you do not do this, we cannot guarantee that we will even

going to close now and will write every change I get Love all ways DAD. about 2,000.00 in finds all together around 10,000.00 a lot of money but that is DUI fore you will I am remember .He is going to court 14 feb and looks like he will be losing his driver license for a year and summer I bet. I had shaun address but like a dum ass I deleted it will try next time I write if I can believe it ben in the high 70s and low 80s can you believe that it is Tucson for you will be a hot keeps going the same way I do just are old age. Angel is the same tall and skine . Weather you wont doing all right just stay a little tired most of the time misty is doing the same I ges that is OK she just at a time and to send the main parts of the first then the rest latter. And the re caps are good for me .I'm witch they would settle this bullshit and get on with life. By the way I did tell Valerie to send 50 copes of and on not pushing it the government is trying to shut down and it dose mess with my pay check so Do what you have to do just cause your self trouble I wont you out as sone as possible. I'm only busy but any way I don't know much about the stock market will have to wait tell you get out of that great books. I was thinking about investing incrypo-currency glad I didt im sure there stock took a nose dive as got for you. Im glad that Valerie and Rosales are on broad now and will help me as for as looking up and the book redemption manual and I hadigot the book yet so I wont be looking for that scents Valerie run short let me know I will try and keep up this time. Yes I did receive the letter tell me about Valerie it with this mail. I also sent 150:00 more and hope that will keep you in money for a while when you place you are in. Sorry you got rejected but you know how they are there so it should not surprise you. wont. I also received a litter from Robert and I was glad I got it and im sure you are too. Will be sending asking me for it have I goting the wrong thing any let know and will try again if that not what you little confuse the book I have been sending is the book on the law of negotiable instruments and you are Coing to try to write you and send some more of the book it is the index stuff that is all is left. I'm a

Hi son

Just got some retrun mail from the Warden there which had the last part of the Negotiable instrruments and I also had roberts letter in it and I belive that is why it was return. I look up Title 28 and it is all about the mail you can receive. Im going to write the warden and ask what part of that return was prohibited and that way I will know for sure. I hope it is not the copys of the book but will fine out when he writes me back. Beside that every thing is going good for me not much part time work for a while and that is ok for me. I havent heard from you for over a week hope you are not in trouable and that you are doing good. Going to send the letter that was in the page of the book that way you can see what I wrote. In about two years Im going to retire for good no more work if I live that long some times im not sure I will make it my old ticker is ating up some and rest of the old body is going hay wire to but will not quite un less the good lord call me home but im sure that wont be soon. So dont get all upset im still hanging in there. Misty is doing good she get tired a lot but I belive the job she has in getting to here a little now but she wont say so. Will going to close for now and write the warden wich me luck love you DAD.
